Power Generation

Products For Fuel Control Applications

ENGINEERING YOUR SUCCESS.

The Power Generation Market

For years, customers have relied on Parker valves to provide control solutions for gas and liquid fuel turbines.

PH76 Servovalve

The PH76 servovalve provides high precision and control under harsh operating conditions. The torque-motor pilot design of the PH76 servovalve incorporates mechanical feedback for high response. Non-arching, non-sparking, ATEX, CSA, and Factory Mutual certification available.

BD15 Servovalve

Parker's BD15 servovalve features a single source pilot design to best protect your system against "hard-over" failures. An internal filter mechanism makes the BD15 highly tolerant to contamination and easy to maintain. Meets ATEX, CFA, and Factory Mutual requirements. Made in the USA.

Fuel Control Systems

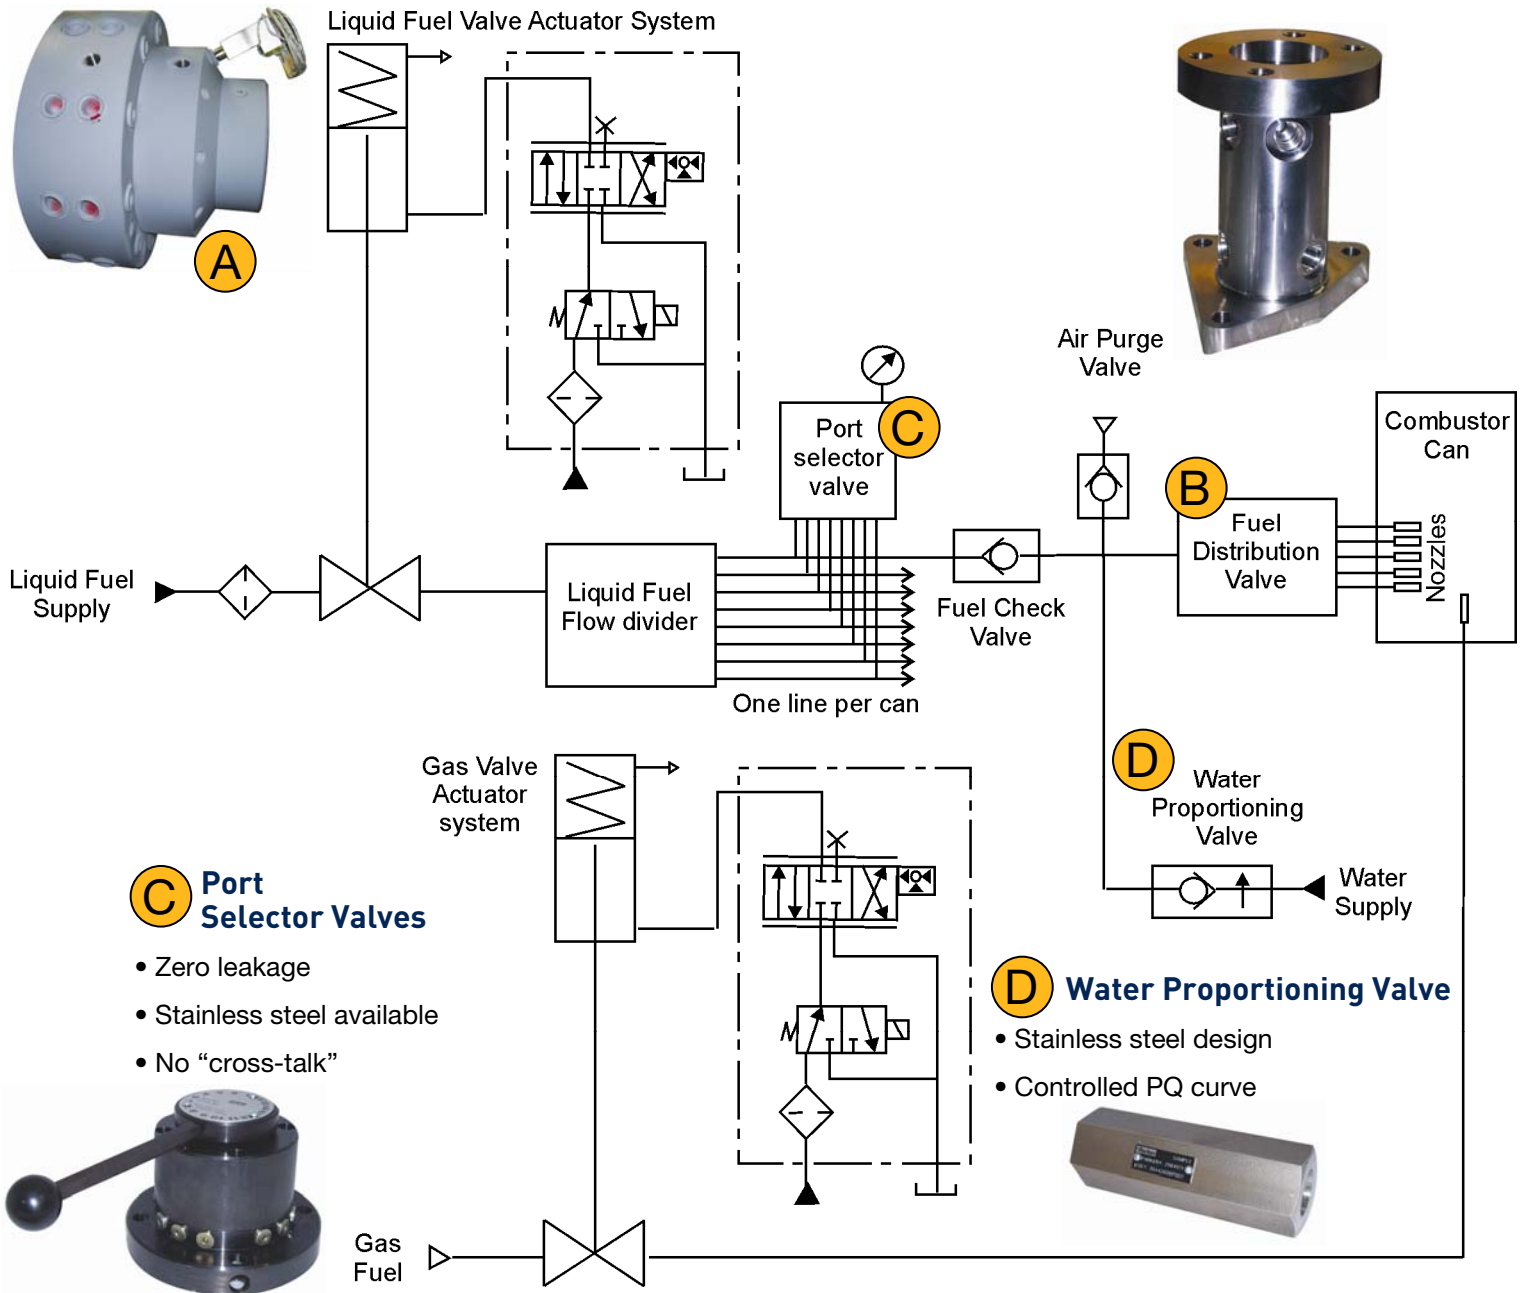

In addition to catalog items, Parker provides a variety of custom equipment to serve the Power Generation market.

A Isolation Valves

- Synchronized poppets
- In-position switch
- Zero leakage

B Distribution Valves

- 5 and 6 port designs
- Regulated nozzle pressure
- Stainless steel

C Port Selector Valves

- Zero leakage
- Stainless steel available
- No "cross-talk"

D Water Proportioning Valve

- Stainless steel design
- Controlled PQ curve

Parker Hydraulics International Sales Offices
