# D1V Spool Chart

(Revised — July 1, 2000)

D1VW, D1VP — C, E, F, K & M STYLES (See Note 1)		D1VW, D1VP — B & H STYLES (See Note 3)		D1VA, D1VC, D1VD, D1VG, D1VL	
B – SOLENOID *(A – SOLENOID)	A – SOLENOID *(B – SOLENOID)	B – SOLENOID *(A – SOLENOID)	A – SOLENOID *(B – SOLENOID)	B – SOLENOID *(A – SOLENOID)	A – SOLENOID *(B – SOLENOID)
1 Spool 697601		10 Spool 697610	20B Spool 697620	1 Spool 697701	
2 Spool 697602		11 Spool 697611	26B Spool 1300209	2 Spool 697702	
3 Spool 697603		14 Spool 697607	30B Spool 697630	4 Spool 697704	
4 Spool 697604		15 Spool 697603		8 Spool 697708	Note Reverse Operator Location
			<b>D1VW, D1VP — D STYLE</b>		
5 Spool 697605		16 Spool 697605			
			20D Spool 697662	9 Spool 1800004	Note Reverse Operator Location
6 Spool 697606		21 Spool 697621			
			30D Spool 697663	81 Spool 1301168	
7 Spool 697607		22 Spool 697621			
				82 Spool 1301215	
8 Spool 697608	Note Reverse Operator Location	81 Spool 1210011			
9 Spool 1302128	Note Reverse Operator Location	82 Spool 1210012			

\* For 8 and 9 Spools Only

\* For 8 and 9 Spools Only

**General Notes:**

- See Sales Catalog for actual spool and style availability by model series.
- When inserting spools into body, note direction of arrow relative to valve operators and ports. For example, for a C style valve, arrow on #1 spool points toward the "A" port.
- Arrows on spools point toward the "B" port for H styles.
- Spools 20, 26 and 30 are two-position spools that do not use a "true" center position. They can only be used with valve styles B, D and H as noted in catalog. Likewise, valve styles B, D and H are two-position valves that can only use spools 20, 26 and 30.
- Valve style C is a three-position valve that can only use spools with a "true" center position (e.g. #1 spool).
- Valve styles E, F, K and M are two-position valves that use one end position and the "true" center position of a three-position spool. Therefore, spools 20, 26 and 30 can not be used with these valve styles.
